This communication is responsive to the request for Request for Continued Examination filed March 22, 2004.

A Request for continued examination under 37 C.F.R. 1.114 including the fee set forth in 37 C.F.R. 1.17e was filed in this application after Final Rejection. Since this application is eligible for RCE under 37 C.F.R. 1.114 and the requisite fee was timely paid, this application has been reopened and the applicant's submission filed March 22, 2004 has been entered.

### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance:

The invention relates to oxazolidinones having a benzannelated 7-membered heterocycle compounds that are used as for treating microbial infections such as skin and eye infection. The closest prior art of record is EP 0359418 A1. The compounds described in this application differ from the prior art in that they have a benzene ring fused with seven membered heterocyclic group having nitrogen as the only heteroatom. The prior art failed to teach or suggest the compounds of this application.
